Professional Summary

Flutter Developer with 4.5+ years of experience building production-grade cross-platform applications across fintech, cryptocurrency, education, and enterprise domains. Strong expertise in Flutter, Dart, BLoC, Riverpod, Clean Architecture, REST APIs, WebSockets, and Firebase. Experienced in real-time systems, financial workflows, KYC onboarding, location-based services, and production app releases.

Professional Experience

Flutter Developer, Aaryavarta Technologies 04/2025 – Present

- Architected a crypto exchange for Bitcoin and Ethereum using Clean Architecture and BLoC for better scalability.
- Implemented real-time price tracking with WebSockets to provide instant, sub-second data updates.
- Separated live price streaming and dashboard state into independent BLoCs, and handled WebSocket reconnection across app lifecycle events.
- Developed user portfolios to manage asset balances, transactions, and investment history.
- Built responsive trading interfaces and integrated Firebase (FCM) for automated price notifications.
- Used AI tools for debugging and drafting tests, reviewing all generated code for architecture and performance.

Flutter Developer, Finaleap Finserv Pvt. Ltd. 06/2024 – 04/2025

- Created digital onboarding workflows for KYC (PAN/Aadhaar), credit checks, and Aadhaar e-sign for the LOS platform.
- Built a payment tracking system to monitor overdue amounts and manage cheque collections efficiently.
- Implemented document features for easy uploading and searching of PDF and image files within the app.
- Improved the user experience by refactoring complex financial forms to make data entry faster.

Junior Flutter Developer, Prime Softech Solutions Pvt. Ltd. 01/2022 – 06/2024

- Developed an ERP solution supporting 20+ education institutions through MyClassAdmin and Teacher apps.
- Integrated Google Maps for real-time tracking and location-based services.
- Published and maintained 3+ production applications across Google Play Store and Apple App Store.
- Integrated REST APIs using Provider and GetX within a scalable application architecture.

Technical Skills

Framework & Languages

Flutter, Dart, Core Java

State Management

BLoC, Riverpod, Provider, GetX

Architecture

Clean Architecture, MVVM, Repository Pattern

APIs & Backend

REST APIs, WebSocket APIs, Firebase, FCM

Storage

MySQL, Hive, SharedPreferences

Tools & Testing

Git, Google Maps, Rive, Unit Testing, Widget Testing

Education & Certification

Flutter Development 08/2022 – 12/2022

Chedo Tech

Master's Degree in Computer Science 07/2022 | Pune

Asian College

Selected Projects

Collection Tracker Application , Field Collection & Payment Management

Flutter app for tracking overdue payments, field visits, and collections.

Real-Time Audio/Video Calling, Flutter | Firebase | ZEGOCLOUD

Real-time chat, notifications, and audio/video calling with incoming/outgoing call flow.
